Feckenham Village Hall.

All welcome to attend.

Public Forum.

A member of public attended the meeting to ask why the VAS machine was sited in the 40mph which they felt mislead drivers into not realising the speed changes to 30mph within a very short distance. They thought it would be more effective much further up the road, and perhaps extending the 30mph. The history of the VAS machines and locations were discussed but it was agreed the PC would ask if the VAS machine in Alcester Road could be moved.
